ÎNTERNATIONAL PRELIMINAR PEXAMINATION REPORT

International application No.

PCT/AU2003/001685 Basis of the report With regard to the elements of the international application:* the international application as originally filed. the description, pages , as originally filed, pages . filed with the demand, received on with the letter of the claims, pages as originally filed, pages , as amended (together with any statement) under Article 19, filed with the demand, pages, received on with the letter of the drawings, pages, as originally filed. pages, filed with the demand, pages, received on with the letter of the sequence listing part of the description: pages, as originally filed pages, filed with the demand pages, received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form. furnished subsequently to this Authority in computer readable form. The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished The amendments have resulted in the cancellation of: the description, pages the claims. Nos. the drawings, sheets/fig. This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).** Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report

INTERNATIONAL PRELIMINAR EXAMINATION REPORT

International application No.
PCT/AU2003/001685

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1.	Statement		
	Novelty (N)	Claims 1-11	YES
•		Claims	
	Inventive step (IS)	Claims 1-11	NO
			YES
		Claims	NO
	Industrial applicability (IA)	Claims 1-11	YES
		Claims	
			NO

2. Citations and explanations (Rule 70.7)

NOVELTY (N) and INVENTIVE STEP (IS)

- A. The documents constituting the closest prior art are:
 - (i) DE 29802910 U
 - (ii) CA 2041306'A
 - (iii) US 3909064 A
- B. The subject matter of claim 1 differs from these prior art documents in that the relatively inflexible elements extending between opposite sides of the platen and held together by flexible ties enabling the platen to be rolled up to form a compact transportable assembly with the side panels and the disconnected rigid members during transportation and also to re assemble.
- C. The distinguishing features of the invention will improve the assembly, disassembly and transportation of the furniture.
- D. Therefore the application satisfies the criteria set forth in PCT Article 33(2-3), concerning the novelty and inventive step of the independent claim 1.
- E. The criteria concerning novelty and inventive step of claims 2-11 are satisfied because these claims are dependent on claim 1.

INDUSTRIAL APPLICABILITY (IA)

The invention defined in claims 1-11 satisfies the criterion set forth in PCT Article 33(4).
